

DOCUMENT TITLE: School Redistricting & Capacity Cheat Sheet

PURPOSE: To identify news that affects school boundaries.

--- KEY TERMS TO WATCH ---

- * "CIP Capacity Study": The school board is counting desks. If a school is at >110% capacity, redistricting is likely coming.
- * "Boundary Study": The scary phrase. It means they are actively drawing new maps to move kids to different schools.
- * "Moratorium": The county might stop new housing permits because schools are too full. (Huge news for developers).

--- THE "HOOK" STRATEGY ---

If you find a document mentioning a "Boundary Study" for a local High School:

- * ACTION: Post immediately.
- * HOOK: "Heads up parents! The Board of Education just requested a new Boundary Study for [School Name]. This usually means map changes in 1-2 years."
